Notes:

- Race car shown is just an example, pick one from your collection that will work well.
- Race car should be driving from left to right (opposite of what is shown above)
- Letters should be centered in squares.
- 'WHEELS' should look like it is moving. Put some effect (not necessarily *italics* as shown) on the letters to get this feeling.
- 'I' in Hobbies should be a hammer.
- Chunkier font for 'HOBBIES & WHEELS'..
- Ensure all text is large enough for good legibility.
- Merrow border.
